

LIMONEIRA'S
ONE WORLD OF CITRUS™

LIMONEIRA COMPANY

WILEMAN BROS. & ELLIOTT

MORO BLOOD ORANGES

Blood oranges have a crimson, almost blood colored flesh. The Blood orange is a hybrid between the pummelo and the tangerine. Its distinctive dark flesh color is due to the presence of anthocyanins, a family of antioxidant pigments common to many flowers and fruit, but uncommon in citrus fruit. Blood oranges have a unique flavor profile compared to other oranges, being distinctly raspberry-like in addition to the usual orange notes.

AVAILABILITY: November - June (Peak: February - May)

SUSTAINABLE FARMING FOR OVER 120 YEARS

Limoneira relies on the health of our planet and the well-being of our people for its continued success. Given our interconnectedness and dependency on the land, sustainability has always been integrated into our business strategy. Sustainability involves several complex interactions and relationships, including, but not limited to, our planet, our communities, our employees and our business practices.

We are committed to the following guiding principles:

- Complying with all applicable environmental regulations
- Training of staff on our environmental programs
- Preventing pollution
- Conserving natural resources
- Minimizing waste
- Handling and disposing of waste in safe and environmentally sustainable methods
- Minimizing the generation of greenhouse gases, and other substances that could cause harm to the environment
